INSTRUCTOR'S COMMENTS

Despite the fact that Anggi was rather shy and quiet in class, he seemed to be attentive when a language presentation was conducted, and he responded well enough to error corrections. However, he unfortunately seemed to struggle to comprehend some basic grammar points taught in class. When repeating the level, he needs to allow some time at home to independently revise the grammar points taught at this level and ask the teacher more questions if he does not understand how to use a language point in contexts. To be able to progress more significantly, he also needs to be more active applying what he has learnt to his speaking. I am certain that this will impact greatly on his spoken fluency and accuracy development.

ANGGI WIDYA OCTAVIANUS
